TALKING DESIGN

Welcome to our designer spotlight series—a monthly look at the talent in our industry, the influences that inspire them, and the process they use to make it all happen.

THIS MONTH'S FEATURE:

COMMERCIAL DESIGN W/ CB2

From restaurants to boutiques, designers across the

country are infusing the CB2 attitude into their commercial projects. NYC-based interior designer Lindsay Biondo of Get Decorated is responsible for the effortlessly cool vibe at the East Hampton Resort.

TURN TEAK DAYBED

“The owner came to us with clear direction—he wanted a space that felt unlike any other Hamptons spot, one with a Mediterranean/Italian Riviera influence. It was the perfect opportunity for us to bring our edgy style to life.”
